

AN EMPEROR CREATES A SENSATION.

The young Emperor of Germany created a sensation at a banquet at Brandenburg by charging the critics of the Government with being enemies of the State. He said it had unfortunately become the fashion to criticize and nag at every step taken by the Government, thus disturbing the public peace on the most insignificant grounds. He thought it would be better if the discontented persons would shake the dust of Germany from their feet and leave the country.

This speech had a different effect from what the Emperor expected. Several thousand men who thought that as Germans they had a right to criticize the Government, assembled in a public square, passed inflammatory resolutions, marched to the Emperor's palace instead of leaving the country, and were finally dispersed by armed force, several of them being wounded. These men were out of employment and doubtless out of money; yet, because they dared to criticize the Government, they were informed that it would be better if they would leave the State.

There are here in Nevada a few persons like the young German Emperor, who want those who criticize the Government or tell the truth about public affairs, to leave the State, and doubtless would supplement the wish with an order to execute it, had they the power. The expenditures of the Government may exceed the receipts, but it will not do to call attention to the matter, but simply leave the State. Vicious legislation and favoritism in dispensing patronage may be carried to extremes, but it will not do to direct attention to the matter, only if you do not like it, you are graciously permitted to get out of the country. It is remarkable what similarity there is between some citizens of our free Republic and the despots of monarchial nations.

DEFICIENCY BILLS.

Notwithstanding the unprecedentedly large appropriations made by the Billion Dollar Congress, there will be a deficiency in nearly every department of the Government. The printing office deficiency is \$385,000, and others are proportionately large. The Secretary of War has called on the Committee on Appropriations for \$6,119,113 to meet a deficiency in the amount due to California on account of supporting disabled veteran soldiers in the State House. The amount due for last year was \$23,375, but Mr. Reed's Congress provided for the payment of only \$17,356.87. The Government guarantees \$100 a year for each inmate in the Home to the State of California, but the last Congress did not appropriate enough to make the payment, there being 256 inmates, and the present Congress is asked to make up the deficiency, which it will do at an early day.

Even the Indian school at Carson is behind in its accounts. The Secretary of the Interior informs Congress that there is a deficiency of \$1,207, the appropriation made by Mr. Reed's Congress for the maintenance of the school, falling that amount short of the expenditures. It is a trick of political leaders in Congress to appropriate less money than is necessary to carry on the business of the Departments, so as to deprive the people, but the trick is so old and the appropriations of the last Congress so large, that no one suspected that it was being played. The extravagance of Mr. Reed's Congress was outside the regular appropriations. It found a full Treasury and it left it empty, or so near empty that all the bonds which matured last year were not redeemed.

IRRIGATION IN NEVADA.

Superintendent Porter has issued a bulletin relating to irrigation in Nevada. It says the total area of land upon which crops were raised by irrigation in the census year, ending May 31, 1890, was 224,404 acres, in addition to which there were approximately 280,000 acres irrigated for grazing purposes. The average size of irrigated farms or more strictly of irrigated portions of farms on which crops were raised, is 192 acres. The average cost of water right is \$7.58 per acre, and the average cost of preparing the soil for cultivation, including the purchase price of the land, is \$11.82 per acre. The average present value of the irrigated lands of the State, including buildings, etc., is reported at \$41 per acre, showing an apparent profit, less the cost of buildings, of \$21.60 per acre. The average annual cost of water is 84 cents per acre, which, deducted from the average annual value of products per acre, leaves an average annual return of \$12.08 per acre.

If Mr. Porter's figures are correct, farming in Nevada is very profitable business, the average annual return from products being \$12.08 per acre. What do the farmers think of it?

MR. MILLS IN WASHINGTON.

A Washington correspondent writes that D. O. Mills, who is at the head of the syndicate which holds the Bering Sea sealing privilege, was in Washington a few days ago. His old business associate, Steve Elkins, now Secretary of War, gave a dinner at which Mr. Mills was the fellow guest of President Harrison and Secretary Blaine. Rumor has it that the visit of Mr. Mills to Washington at this time was for the double purpose of assuring the President that, notwithstanding his opposition to silver, he could rely on the vote of Nevada in the Electoral College, and attending to business connected with the Bering Sea Commission.

With such friends as Elkins and Blaine in the Cabinet, Mr. Mills is said to feel confident that the interests of the syndicate, of which he is the head, will be properly protected by the Administration.

A RAILROAD EXTENSION.

Bloodhounds on the Trail of the Negro Fiend.

CONGRESSIONAL PROCEEDINGS.

The Free Coinage Bill—Estimates Submitted—An Ex-Sheriff Arrested—The Wool Bill Will Be Considered First.

CARSON & COLORADO RAILROAD.

It Will Be Extended to Mojave in the Near Future.

SAN FRANCISCO, February 26.—A complete reorganization of the Carson & Colorado Railroad Company has been effected and articles of incorporation were prepared to-day to be filed at Sacramento immediately. The purpose of the arrangement is for the extension of the line from Keeler, Inyo county, to Mojave on the line of the Southern Pacific and Atlantic and Pacific Railways. The construction of the line over the desert to Mojave will be commenced in a short time, material for that purpose having been contracted for in the East and on this coast. The stockholders in the new company are as follows: D. O. Mills, Edgar Mills, F. G. Newlands, Geo. Whittell, Thomas Bell, J. B. Randall, Horace L. Hill, H. M. Yerington and Wm. S. Wood. The articles of incorporation set forth that \$1,000 is actually subscribed to the capital stock for each mile of railroad intended to be purchased or constructed by the corporation, and that there shall be paid to the Treasurer, George Whittell, 10 per cent of the amount subscribed. One hundred dollars have also been subscribed for each mile of telegraph along the line of the road. The plan of reorganization included the purchase of a construction of 425 miles of road. Of this, 293 miles are already built, and 132 miles remain to be built. D. O. Mills, the leading stockholder in the concern, has contemplated an extension of the line for several years. It is believed that he has been led to finally decide upon this important step because of the strong indications that another company, the Rio Grande Western, would reach down through Nevada and connect with the Southern Pacific. He will forestall this by building a road himself, and will be first in the field, as it would take a long time for the Rio Grande Western to reach California. The Carson and Colorado railroad runs from a point on the line of the Virginia and Truckee railroad known as the Mound Horse, and the line is over one half in Nevada and the rest in the State. The company has had a very prosperous year, and it is in better condition than ever to extend its line to Mojave.

The Free Coinage Bill.

WASHINGTON, February 26.—Free coinage men of the House feel elated over the action of last night's caucus in refusing to consider any proposition for the delay of free coinage legislation. Harter and his friends content themselves to-day by simply announcing that they will oppose the Bland bill by every parliamentary tactic in their power when it comes up in the House and that it will pass the lower branch of Congress. These people say the Democrats who oppose the free coinage bill will for most part, merely content themselves by recording their votes against it. Bland, Pierce and other leaders of free coinage, are to-day compiling and arranging petitions to be presented to-morrow to the Committee on Rules asking for a day for the consideration of the free coinage bill. Representative Pierce said to-day that the committee would no doubt report the order at an early day, and that a date will also be set when a final vote will be taken. The bill will pass the House, said Pierce, and the Senate will have the responsibility resting upon it. The bill, he said, has a clear majority of forty votes in the House. Harter of Ohio says the passage of the Bland bill will disrupt the Democratic party as completely as did the slavery question in 1860.

In the Senate.

WASHINGTON, Feb. 26.—Both the Vice President and the President pro tem. being absent to-day, the chair was occupied by Harris, who laid before the Senate the special message of the President on the subject of the claims of the Wichita and the affiliated tribes of Indians in Oklahoma Territory, and it was referred to the Committee on Indian Affairs. The consideration of the Idaho election case was resumed and Vance of the Minority Committee continued his argument begun yesterday in support of the claim of Clegggett. Much of his argument was devoted to the reputation of Turpie's claim. The organization of the Idaho Legislature was complete when its members met, and holding that as Dubois' election took place the day before the formal organization, that election was null.

Clogggett, Idaho's contestant, addressed the Senate in his own behalf. The case went over without further action, and the Senate adjourned until Monday.

The Negro Scoundrel Surrounded.

SEBASTIA, Mo., Feb. 26.—Excitement over the Taylor robbery and rape case is still unabated. There are 100 Deputy Sheriffs searching the country. A telegram was received this morning by the Sheriff from Charles Minter, who has charge of the posse near Tipton, saying he had the man surrounded in the woods and asking for bloodhounds. Dogs were at once sent. Gov. Francis offered a reward for the apprehension and conviction of the perpetrators of the horrible outrage.

An Ex-Sheriff Arrested.

TUCSON, Feb. 26.—M. F. Shaw, ex-Sheriff of Pima county, was arrested by United States Marshal Paul this morning charged with smuggling cattle, brought from Mexico, and evading the payment of duty at Tres Bellotes. He was released by giving bail in the sum of \$20,000.

Estimates Submitted.

WASHINGTON, Feb. 26.—The Secretary of the Interior has submitted to Congress estimates in the sum of \$127 for an Indian school at Carson City, Nev., as a deficiency for the year 1891.

In the House.

WASHINGTON, Feb. 26.—In the Pennsylvania contested election case Stuart, Republican, was unseated in favor of Craig, Democrat. Recess was taken until this evening.

The Wool Bill.

WASHINGTON, February 26.—The wool bill will be the first of the tariff bills to be taken up, members of the committee reaching this conclusion to-day.

A LEAP YEAR PARTY.

A Pleasant Event at Brown's Station.

Mrs. Brown, at Brown's station, graciously opened her spacious residence for the entertainment of the young people in a Leap Year party on the evening of Washington's birthday. The company began to arrive at 7 1/2 o'clock, the gentlemen being carefully attended by their fair escorts. The ample dining room and parlors as well were ready for the gay dancers, and thirty couples formed the grand march. The ladies were attentive and saw that none of the gentlemen were without partners through more than one dance. And "all went merry as a marriage bell."

The floor manager, Miss Amelia Wright, and assistant, Miss Margaret Wright, were successful in their endeavor to have the dances follow in quick succession and the floors were kept full. When came the hour of 12 Mrs. Dicks rallied the Supper Committee—Misses Pauline Fife, Amelia Westdahl, Mary H. H. Lanza and Nellie Brown and Mrs. Albert Brown to the kitchen to bring from the well-stocked baskets their substantial and delicious. The company gathered in happy, jovial groups and was served to a bountiful collation. Mr. and Mrs. Albert Brown and Miss Laura Brown were outshining in their efforts to make it pleasant and enjoyable for their guests, and how well they succeeded was known by the expression of gratitude from all present.

We will not take space to describe the gentlemen's toilet, but suffice it to say that they were very sweet, lovable and loved. Before the party broke up at 4.30 o'clock there was a vote taken among the ladies as to which of the gentlemen was "belle of the ball," and the palm was given to F. E. Sadler. Messrs. Charles Daveport, James Good, William Wright and Archie Winters were second best, all receiving the same number of votes. All departed feeling that Mrs. Brown and family cannot be surpassed in generous and hospitable entertainments.

PEN PICTURES.

The Exercises at the High School Yesterday.

The pen pictures presented at the High School yesterday afternoon drew an intelligent audience and elicited much favorable comment. Thirty-three pictures were exhibited, many of which were artistic, all of which were clearly out and well colored. The Judges, selected from the audience, were Trustees S. M. Jamison and Messrs. A. C. Bragg, and R. L. Fulton. The readings over, the Judges retired and after a few minutes returned with their decision. Miss Laura Smith's was decided to be the best picture presented by the Senior Class, and Mr. Percy Haveson the best by the Middle Class.

County Superintendent Julien, R. L. Fulton, Benj. Currier, Jr., and State Superintendent Ring, being called upon gave interesting talks in which much advice was given. All commended the idea of developing the writing and speaking talents of pupils and also commended the work presented. Songs were interspersed with the essays and altogether a very pleasant afternoon was spent.

In Mrs. Booth's room were exercises commemorative of Longfellow's birthday. There was among other good things a prize contest in recitations in which Edna Williams was the winner.

Interesting exercises commemorative of Washington's birthday were held in Miss Northrop's room.

Dislocated Both Hands.

W. H. Payne, a member of the Fraternity of Drummers, arrived on the Virginia and Truckee last evening. While at Dayton yesterday Mr. Payne started to drive a span of mules, which ran away, throwing him from the wagon. In endeavoring to save himself from falling on his head he dislocated both hands. He was met at the train here by Dr. Patterson, who treated the injured parts.

Humored Change.

It is rumored that there will be a change of divisions made on the Central Pacific Railroad in the near future. Some say in the next month. Passenger conductors, it is said, will change at Reno instead of Truckee as at present. President Huntington is coming to the coast and the change may be made when he arrives.

UNCLE TOM'S CABIN.

The Popular Old Drama to Be Presented at Reno.

It has been many years since the popular old drama, Uncle Tom's Cabin, has been presented before a Reno audience. On Saturday, March 5th, the famous old New Orleans organization will give a grand presentation of that play.

The company is a very strong one, being made up of the following well known players from New York: Hank Goodman, Billy Woods, Fred Lisle, Homer Pitts, Fred Applebee, Dave Seymour, Edna Clare, Jessie de Munnigh, Daisy Markoe and little Lizzie Moshe.

A GRAND AFFAIR.

A Local Event at Wadsworth.

The Grand International Association of Machinists gave a ball at Music Hall on Washington's Birthday, and the Father of Our Country might well be proud of the vigor and beauty of his sons and daughters assembled in the handsomely decorated hall to do him honor. Streamers of red, white and blue, radiating from a handsome center piece, were fastened above a still finer wall decoration. A monogram, cut from solid metal, formed one of the chief attractions in the line of adornment.

"Welcome" in golden letters greeted the eye on entering, and the guests found it no idle word, for they were treated with the utmost consideration and politeness by the committee in charge, while the floor managers, Messrs. Haight and Curran, lost no time in filling up the sets. Prizes were given the best waltzers.

The supper given by Mrs. Fowler was pronounced perfect, and everyone went home feeling satisfied that nothing was lacking to make the dance a success. Well may the machinists feel proud of their first effort.

MARRIED.

SEARS—DUNLOP—At Oakes, February 24, 1892, by the Rev. J. McLean, S. S. Sears, of Reno, to Miss Sarah Dunlop of Wadsworth.

Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it. Mrs. ELIZA A. GORR, 61 Terrace Street, Boston.

Sarsaparilla

Sold by all druggists. \$1.50 per bottle. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

BREVITIES.

The Board of University Regents meet to-day.  
O. M. Innes of Lake View was in town yesterday.  
The sheep shearing season will begin in a short time.  
The upper part of Powning's Addition is being plowed.  
Judge Rising arrived from San Francisco yesterday.  
Judge Bigelow came down from the Capital last evening.  
The mail from the West was two hours late yesterday morning.  
Mr. and Mrs. H. M. Yrington returned from California yesterday.  
O. Luskay of the Verdi Mill Company arrived in town yesterday.  
Miss Amy Weston of Elko is visiting Mrs. Bradley of this city.  
Mr. and Mrs. C. C. Powning intend to leave for home next week.  
D. C. Wheeler will ship about 900 fat sheep to San Francisco to-day.  
The Reno Lumber Company will open a lumber yard at Anadine in a few days.  
The roads are in such good condition that bicyclists are out on their wheels once more.  
Ella Dealey came up from Oakland yesterday morning and is visiting friends here.  
The Riverside Club gave their last social until after Lent at Thompson's Hall last evening.  
Miss Alice McGee of Virginia City came down last evening on the local on a visit to Reno friends.  
Mr. and Mrs. S. S. Sears returned from Ogden night before last and are guests at the Riverside.  
There has been a motley in the Salvation Army ranks, one of the recruits beat an officer unceremoniously.  
J. G. Taylor has sixteen men at work at Mill City shearing sheep. The fleeces are said to be good this season.  
There will be another eulogistic concert at the Baptist Church Monday evening for a Devereux silver medal.  
The Salvation Army has been augmented by the arrival yesterday of three new gentlemen members from San Francisco.  
The Return Leap Year party to the Daughters of Rebekah given last evening was a brilliant affair and largely attended.  
John Sunderland yesterday received an invoice of 1200 white shirt, which have been sixty-four days in transit from Troy, N. Y., to Reno.  
Ten carloads of beef cattle came in yesterday on the Nevada and California from Cook & Humphrey, and consigned to Hays, Brooks & Co., of San Francisco.  
Din Wheeler will ship 840 head of sheep to San Francisco to-day, the last he has. At the present price of mutton that number represents quite a little sum in cash.  
At the Friday afternoon exercises at the University yesterday Miss Mayberry read a paper on "Mrs. Browning." Mrs. Allison an essay entitled "U and I," and Mrs. Taylor recited an original poem entitled "Open Doors."  
Colonel Hardin arrived yesterday from California on his way to Humboldt. He says Northern California has had abundance of rain and good crops are assured. The beef market is not so stiff as it was, but steers in Nevada ought to be worth about 7 1/2 cents per pound.  
A Government party in unearthing ancient mines at Casa Grande, Arizona, unearthed seven stone axes, one serpent urn, carved stone mountain sheep, three pieces cloth, four large unknown devices of stone, lot of shells, two medals, three ovals painted, lot of metal stones, shell loops, carved shell devices, decorated and painted shells.  
A FLOT TO ROB A TRAIN.  
The Railroad and Express Men Prepared.  
A few days ago a reputable citizen of Ogden accidentally overheard some persons, supposed to be highwaymen, discussing a proposition to rob the express train at Montello station, where an attempt was made by three highwaymen some years ago to plunder the express car. The railroad officers at Ogden were informed of the plot and they in turn communicated the news to Wells, Fargo & Co.'s men. It was therefore arranged to send armed men on the trains going East and West and be prepared to give the robbers a warm reception. J. Y. Ross, who who was on the train as express messenger and stood the robbers off at the time of the attempted robbery, left Ogden with others for Montello and three men went East from here.  
Last night, according to the report of the man who heard the plotters, was the time fixed for the robbery. The matter has been kept very quiet, as the express men wanted to catch the robbers should they stop the train.  
The Mistakes of life are many—some are great, others small. We classify them as we feel their effect, and just in the same way you recognize Simmons Liver Regulator when taken for Indigestion, Dyspepsia, Constipation and Biliousness. There can be no mistake in taking the Regulator for these disorders. It quickly relieves. Don't make the mistake of getting anything else for Malaria.

The report of the several committees appointed by the foreman are attached and made a part of this report. The work done by these committees has, I believe, been well and faithfully performed, and your foreman takes much pleasure in complimenting the members thereof.  
PUBLIC BUILDINGS AND GROUNDS.  
The Committee on Public Buildings and Grounds beg leave to report that we have visited the County Hospital and made a thorough inspection of the same, and find the building in good repair and the surroundings in good order. Everything in and about the premises are kept neat and clean and the patients apparently enjoy all the comforts of the house. It is due to Mr. Joy, the steward, to say that his management of the institution is worthy of commendation.  
We find the year 1891, the cost of maintaining the indigent sick and poor at the County Hospital, including maintenance, physician and repairs has cost 72 cents per day for each patient.  
We have made a thorough examination of the Courthouse and find the building generally in good repair. We recommend that the Commissioners immediately replace the hayrads. Those now in use are liable to give away at any moment, and it would be difficult and dangerous then to replace them.  
O. C. Ross, Chairman, ROADS AND BRIDGES.  
The Committee on Roads and Bridges beg leave to report that we have examined as carefully as possible into the condition of all county roads and bridges, and also have examined the bills allowed by the Board of County Commissioners during the past year showing expenditures on same. The present condition of the roads throughout the county, so far as we have been able to examine them, is as good as could be expected at this season of the year, with the exceptions hereinafter noted.  
At the south end of the county we find the road running across the north end of Washoe Lake from Franktown and intersecting with the Carson and Virginia road is now impassable. This road was bought some years ago at a cost of \$5,000 from John Dall, and the taxpayers in the vicinity ask to have this road put in proper condition for the accommodation of the traveling public. As it is a well known fact that our road fund is exhausted we do not endorse this request, but suggest that the Board of Commissioners see what can be done in the premises.  
The road running through the middle of Spanish Springs Valley is now nothing but a slush hole and tears cannot pass on that route, but under the present system of disposing of the waste water in that section your committee would not advise any outlay of public money on the road.  
The road east of Verdi bridge, running through what is known as "Dobs Flat," should be moved north to the foot of the bluff. In the near future the land on the flat will most likely be improved for farming purposes, and the road will then have to be changed. As it is now, while good in dry weather, in the winter and spring months the depth of the mud renders that portion of the road impassable for heavy teams.  
Your committee would respectfully call your attention to the fact that large sums of money are yearly expended on county roads which brings but a poor return to the taxpayers. The cost of labor, lumber and road supplies for Reno township alone was last year in round numbers very nearly \$5,000, and for other districts in the county the expenditures were nearly \$3,000, or \$8,000 in all, and add to this large sum the amount paid out in building and repairing county bridges and we have a total of \$13,695 45 debited to the general road fund.  
Your committee is of the opinion that if the present system of road work is continued our public highways will always be expensive and a continual and exhaustive drain upon the road fund.  
We have no reason or desire to censure our Commissioners, and have no doubt but the board endeavored to be fair and honest in letting contracts and allowing bills, but it is very evident that they cannot keep watch and ward over all the roads in the county and the work done thereon.  
Your committee believes that a return to the old method of allowing each road district in the county to elect a Road Supervisor would insure a more economical outlay of the public money and better roads, or a Board of Commissioners consisting of five members, four of whom being residents of precincts outside of Reno, and governed by a rule that all important road work must be done by contract, and all contracts let to the lowest responsible bidder would, perhaps, be the better plan.  
D. W. Bryant, Chairman, CORPORATION AFFAIRS.  
The Committee on Justice and Constable books, sewers and other corporation matters, beg leave to report that we have examined the Justice docket and fee book and the accounts of the Constable, and appended are statements of the number of arrests, number of convictions and amounts received from various sources during the year just passed by both officers.  
The town sewers are in good condition and well supplied with flushing tanks. Herewith you will find statements showing amount of new pipe laid during the year and the total expenditures for the year from the sewer fund.  
The outlets at the river should be changed, as sewerage should not be dumped within the town limits, and your committee earnestly recommend that, if possible, this change should be made before the warm weather is upon us. Even

# Established Facts:

That the ROYAL BAKING POWDER is the oldest and purest baking powder, and the greatest in leavening strength.  
That it is free from every injurious substance.  
That it makes lighter, sweeter, more nutritious and healthful food than any other.  
The Royal Baking Powder Company refines its own cream of tartar in its own mammoth refinery, and thus insures its unvarying quality.

There is used in the manufacture of the Royal Baking Powder more than half of all the cream of tartar consumed in the United States for all purposes. This is required and must be chemically pure, and chemically pure cream of tartar could not be obtained in the markets of this country or Europe, which necessitated the building of special works, and the employment of special processes.

All other baking powders, when analyzed, show traces of lime and sulphuric acid, which arise from the impurities of the materials bought in the market, which their manufacturers use.  
This is why the Royal Baking Powder is the only absolutely pure baking powder made.

now the north bank of the river in the immediate vicinity of the iron bridge above and below is lined with a mass of foul sewerage matter, which, if not removed before the approach of hot weather, will prove a prolific source for deadly disease. As a matter of fact we do not believe that Reno has a right legally or otherwise to use the Truckee river for a dumping ground for her sewers, and some other outlet should be secured as soon possible.  
The report of the Secretary of the Board of Fire Department Trustees is herewith appended. The usual amount of expenses have been incurred, the Department is in possession of good engines and needful fire apparatuses, the town is well supplied with water, young men by the score are ready and willing to "stand in," and yet we find that our Fire Department is not properly organized and much valuable property is liable to be lost by reason of the imperfect system which now holds.  
In conclusion, your committee are pleased to note the fact that of late there has been a more general observance of the 12 o'clock closing law among saloon men, as so far as we have been able to learn, boys under the age of 21 are not now allowed in saloons, but it is sometimes a matter of impossibility for the saloon keeper to determine the age of his customers.  
We have reason to believe that the law prohibiting the sale of cigarettes to minors is not generally complied with. Our local dealers, it appears, let their greed for gain overcome their respect for law and the boy of tender years has no trouble in supplying himself with the health-destroying narcotic. It seems to us that the law should be enforced, and if certain dealers in tobacco in this city were dealt with according to the provisions of the statutes for such made and provided, parents would feel less uneasiness in regard to their children and the rising generation would be greatly benefited.  
S. A. Hamlin, Chairman, COUNTY OFFICES.

The committee appointed to examine into the affairs of the county offices of Washoe county, beg leave to report as follows:  
Sheriff's office.—We find that the books and accounts of the Sheriff's office are properly kept, and all fees and licenses collected are promptly turned over to the Treasurer. We find that the Sheriff has been collecting saloon licenses in certain cases by the month, while the law specifically provides that no liquor license shall be issued for less than three months, and we recommend in the future all licenses shall be collected in strict accordance with law.  
Clerk's office.—We find in this office that fees to the amount of \$192 remained unpaid or uncollected for 1891. Your committee called the Clerk's attention to this fact and he promptly paid the amount to the Treasurer, and further answers your committee that in future all fees shall be promptly paid to the Treasurer each month.  
Assessor's office.—We find the accounts in this office correct and that all moneys collected have been promptly paid over to the Treasurer.  
County Recorder and Auditor.—The committee spent a large amount of time and labor in the investigation of the Auditor's books. In order to make a thorough investigation of the amount of fees earned in the office during the past year, we found it necessary to check off every instrument treated with his fee book. This has been a very difficult work, and resulted in showing fees earned and unpaid to the county for that year of \$110 90, which amount has been paid to the Treasurer. The Recorder assures your committee that he will rectify the manner of keeping his accounts of fees earned and paid to the Treasurer each month. To that the work of Grand Jurors will be greatly decreased in the investigation of this office for the future.  
County Treasurer.—We have examined the books and vouchers in the County Treasurer's office and find them correct and neatly kept.  
District Attorney and County Superintendent of Public Instruction.—We have examined the books and papers connected with the office of County Superintendent of Public Instruction, and find the same correct, and we are happy to state that there is money sufficient in the funds of the different school districts to pay expenses and salaries of the teachers for the present year.  
In conclusion we would earnestly recom-

ment that the county officers keep a full, correct and complete account of all business transacted in their offices, so that citizens or Grand Jurors can at any time inform themselves of the amount of business transacted and fees charged in each office. We would suggest that all county officers hereafter read the law governing their respective offices and comply with the same, so that it may not be necessary for the Grand Jury to inform them of the existence of laws which they are called on to execute.  
M. D. Foley, Chairman, RECOMMENDATIONS.

This Grand Jury renews the recommendations of the Grand Jury of a year ago, that a high license law be passed and that all persons engaged in the retail liquor traffic be taxed at least \$100 per quarter, and we would suggest that a law placing a retail liquor license at \$400 a year, six months payable in advance, would have a salutary effect.  
It cost this city last year upward of \$4,900 to run the fire department, and we are not afforded the protection that should follow the expenditure of this money. Therefore we recommend to the County Commissioners and Board of City Fire Trustees that they take immediate steps to reorganize the department so as to afford property owners better protection. We would respectfully suggest that a small paid department would be advisable.

This Jury has appointed the following members as a committee to confer with the Commissioners and Fire Trustees in devising means to reorganize the department: Allen C. Bragg, M. D. Foley, B. F. Leete, S. A. Hamlin, L. J. Flint and C. T. Bender.  
It is the opinion of this Jury that the salary system is not calculated to give a good official service as we would wish; therefore we respectfully recommend that the salary law be amended and that the Sheriff, Clerk and Recorder be put on a reasonable salary for doing all the county business, and for all civil business that they be allowed fees, and this Jury recommends that our delegation to the next Legislature have the salaries for this county so changed.  
At a meeting of this Jury held on the 11th day of February, the following resolution was unanimously adopted:  
Resolved, That the foreman of this Grand Jury demand of the Sheriff and Constable that they enforce the 12 o'clock closing law and the law relating to minors visiting saloons and gambling houses.  
Your foreman promptly made this demand and both officers indicated their desire to comply with this demand of the Grand Jury and promised to take immediate steps to enforce said laws. We are pleased to inform your Honor that the said laws are being generally complied with in the city of Reno.  
The Jury returns its thanks to the Court, District Attorney and all county and township officers for the courtesies extended it. Respectfully submitted,  
O. T. Bender, Foreman.

BUSINESS, LOCAL AND NEWS ITEMS  
For fine boots and shoes go to H. F. Favola.  
Fine eastern hams and Bacon at W. S. Bailey's.  
Hot lunch at Kerth's every day, ten cents with beer.  
All sizes of glass from 8 to 56 inches long at McCullough's drug store.
